

12<sup>th</sup> Annual

Association of Ignition Interlock Program Administrators Conference

*“Interlock & Roll: Harmonizing Data, Safety & Policy in Music City, U.S.A.”*

May 17 - 20, 2026 | Hilton Nashville - Green Hills

AIIPA welcomes industry partners and stakeholders to support our annual conference through sponsorship opportunities designed to increase visibility, strengthen relationships with state administrators, and promote innovation within the ignition interlock community.

Our sponsorship levels provide meaningful engagement with ignition interlock program administrators, regulators, law enforcement partners, licensing specialists, judicial representatives, and compliance professionals from across the country.

Sponsorship is an opportunity to demonstrate your organization’s commitment to public safety, compliance technology, and interlock program integrity, while gaining valuable access to national decision-makers and program leaders.

Conference Attendee List Provided	Yes	—	—	—
Additional Conference Benefits	Yes (Exclusive)	—	—	—

## **Diamond Sponsor – \$10,000**

The Diamond Sponsorship is AIIPA’s premier sponsorship level and provides the highest degree of visibility, engagement, and access throughout the conference. Diamond Sponsors are recognized as key supporters of national ignition interlock program advancement and innovation.

Diamond Sponsors will receive enhanced recognition throughout the event and will be given priority access to optional sponsorship opportunities such as meals, breaks, and networking events.

### **Exclusive Diamond Sponsor Benefits**

In addition to all standard sponsor benefits, for this conference Diamond Sponsors will receive the following exclusive benefits:

- Opportunity to participate in a structured Q&A session with Advance Training Institute (ATI) attendees, allowing direct interaction with regulators and program administrators engaged in higher-level training.
- Opportunity to participate in a controlled device demonstration session during the general conference, where the sponsor may showcase device functionality and anti-circumvention technology.
  - This demonstration session will allow Diamond Sponsors to address and dispel common misconceptions related to “false positives” (such as claims involving food, drink, mouthwash, or other contaminants).
  - Demonstrations will be conducted in a structured and controlled setting to support transparency, education, and confidence in device technology.

Diamond Sponsors are also eligible for additional conference-specific benefits and premium promotional placement.

---

## **Gold Sponsor – \$5,000**

Gold Sponsorship offers a high level of visibility and participation while maintaining strong value. Gold Sponsors are prominently recognized throughout the conference and receive priority placement after Diamond Sponsors for promotional acknowledgements and optional event sponsorship opportunities.

Gold Sponsors receive significant access to conference attendees and are encouraged to use this sponsorship level to highlight products, compliance tools, and service enhancements.

---

 **Silver Sponsor – \$1,000**

Silver Sponsorship is an excellent option for organizations seeking a cost-effective way to support AIIPA and gain recognition among ignition interlock administrators and stakeholders.

Silver Sponsors receive recognition after Diamond and Gold sponsors and are included in conference promotional materials and vendor opportunities.

---

 **Exhibitor (Non-AIIPA Member) – \$2,500**

The Exhibitor level is available to organizations who are not AIIPA members but wish to attend and participate in the vendor area. Exhibitors receive recognition after all sponsor levels and are provided a vendor table to display materials and engage with attendees.

This option is ideal for organizations who want a presence at the conference but do not require a full sponsorship package.

---

## Additional Notes & Sponsorship Prioritization

- Sponsorship opportunities such as meals, breaks, and special events are limited and assigned based on sponsorship level and timing of commitment.
- Diamond Sponsors receive first priority, followed by Gold, then Silver.
- Sponsor recognition and placement will follow the same priority structure.
